206 EAST HOLLY AVENUE
SEWELL, NJ 08080

April 26, 2017

Dear Thomas Jefferson Elementary School Community:

Washington Township School district contracted with South Jersey Water Test, LLC of Williamstown, N.J. to conduct the mandated State lead testing of water outlets of schools in our district. These tested outlets included water fountains and sinks throughout the district. Water samples were taken for Thomas Jefferson Elementary School on 3/21/17, analyzed and verified by the laboratory on 3/30/17 and 3/31/17 and received by the District today, 4/26/17. I am happy to report that none of the 51 samples taken exceeded the US Department of Environmental Protection Agency (EPA) action level of 15ug/l [ppb]. PPB stands for parts per billion. The specific results of this extensive testing will be posted to our website.

The safety of our students, staff and community members is our utmost priority; therefore, we are responding in a proactive and conservative manner with focus beyond the mandates to ensure such. If you have any questions concerning this matter, please contact Mr. Schoenfeldt our Operations Manager at 856-589-9120.

Very truly yours,

A handwritten signature in black ink, appearing to read "Joseph N. Bollendorf". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Joseph N. Bollendorf
Superintendent of Schools
